EDUCATION

Northern Kentucky University - B.S. Computer Science — **Highland Heights, Kentucky**

Minors: Applied AI, Mathematics, graduating May 8th 2027 — *GPA: 3.94*

EXPERIENCE

GE Aerospace — **Evendale, Ohio**

Digital Technology Intern - Cybersecurity Project Management — *June 2026 - Aug 2026*

- Software engineering experience to translate user stories and stakeholder feedback into secure software solutions following Agile principles using TypeScript, PostgreSQL, and React to support AI enablement initiatives
- Data analysis of Operational Technology (OT) assets from inventory spreadsheets to justify VLAN segmentation
- Supporting digital transformation initiatives by migrating internal projects into ServiceNow SPM to improve accessibility, visibility, and reporting for high-priority cybersecurity initiatives

Medpace Inc. — **Cincinnati, Ohio**

Network Engineer Intern — *Jan 2026 - May 2026*

- Supported Zscaler zero-trust operations by resolving secure web access, proxy, & enforcement tickets for 6000+ users
- Maintained NetBox IPAM/DCIM accuracy across infrastructure in 50+ countries, managing device inventory, rack documentation, and switch lifecycle validation
- Contributed to an Arista network POC through configuration and connectivity testing, helping identify a solution that reduced vendor costs by 33%
- Developed microsegmentation policy and engaged in validation and enforcement testing to prevent lateral movement

Kenton County School District — **Ft Wright, Kentucky**

IT Intern — *Jun 2024 - May 2025*

- Set up Intermediate Distribution Frames and Wireless Access Points
- Surplusing, inventoried, and repaired 100+ devices weekly
- Imaging desktop/laptop computers and management of 1,000+ security cameras

PROJECTS

Engagement.live — **Highland Heights, Kentucky**

Project — *October 2026*

- Collaborated to build a full-stack web app using Leaflet.js and OpenStreetMap to dynamically map real-time campus events and live navigation to unite the NKU Community. Built with MongoDB, Express, React and Node. Awarded first place at the NKU Informatics Hackathon, built within 24 hours.

LyWeek Agenda Planner — **Covington, Kentucky**

Project — *Aug 2026*

- Developed and deployed a full-stack web app with REST APIs, session-based authentication, responsive UI, and cloud deployment, with design using React, Express, and PostgreSQL

CNN Clothing AI Classifier — **Highland Heights, Kentucky**

Project — *January 2026 - April 2026*

- Built a deep-learning CNN classifier achieving 87% accuracy by performing data preprocessing, feature engineering, model evaluation, and performance analysis using TensorFlow/Keras, Pandas, and other Python libraries

LEADERSHIP + PROFESSIONAL DEVELOPMENT

INTERalliance Buddy — **Evendale, Ohio**

Mentor — *June 2026 - Aug 2026*

- Mentoring a high school intern at GE Aerospace to support the future of technology and give advice on the world of technology, college, and beyond

Florida Artificial Intelligence Research Society Conference — **Marco Island, Florida**

Attendee — *May 2026*

- Recipient of an NSF grant to attend this annual conference to gain insights on AI trends and network more in this field

Young Scholars Academy — **Highland Heights, Kentucky**

Ambassador — *Dec 2023 - Aug 2024*

- Represented the YSA community of more than 250 students and organized meetings with academic advisors, held social events, and demonstrated strong communication and teamwork skills as a representative of the student body
